

Remarkably versatile software for global trading

iress.com/ordersystem

Work your way with the industry's most versatile trading software

When it comes to finding a competitive edge,
every trading firm wants to work their own way.

That's not easy if your software is 'one size fits all'.

Iress offers the industry's most versatile trading and order management
system.

Designed to help you trade your way across the entire order lifecycle,
Iress Order System is a complete, configurable trading system.

Start with a full suite of functionality, from pre-trade risk management, to
order routing and execution, to post-trade handling.

Take advantage of low-latency direct market connectivity and
high-capacity FIX.

Connect to the world's major exchanges, market data feeds and trading
hubs.

And deliver a higher level of performance on robust, scalable and
remarkably versatile technology.

Visit iress.com to find out how Iress and Order System can help
you work your way, trade smarter and achieve more.

One system

Everything you need to trade at your best

From trading, to market data and connectivity, across front office trading to middle and back office processing, our trading and market data software can help you do it all, and do it better.

Connected to market data from 160+ global exchanges

Robust pre-trade risk management

Automated order routing & execution management

Fast order entry & execution

Global order management and workflow

Complete post-trade processing

Market Maker & RSP, together

Configurable risk tools, audit trails & alerts

Engineered for efficiency

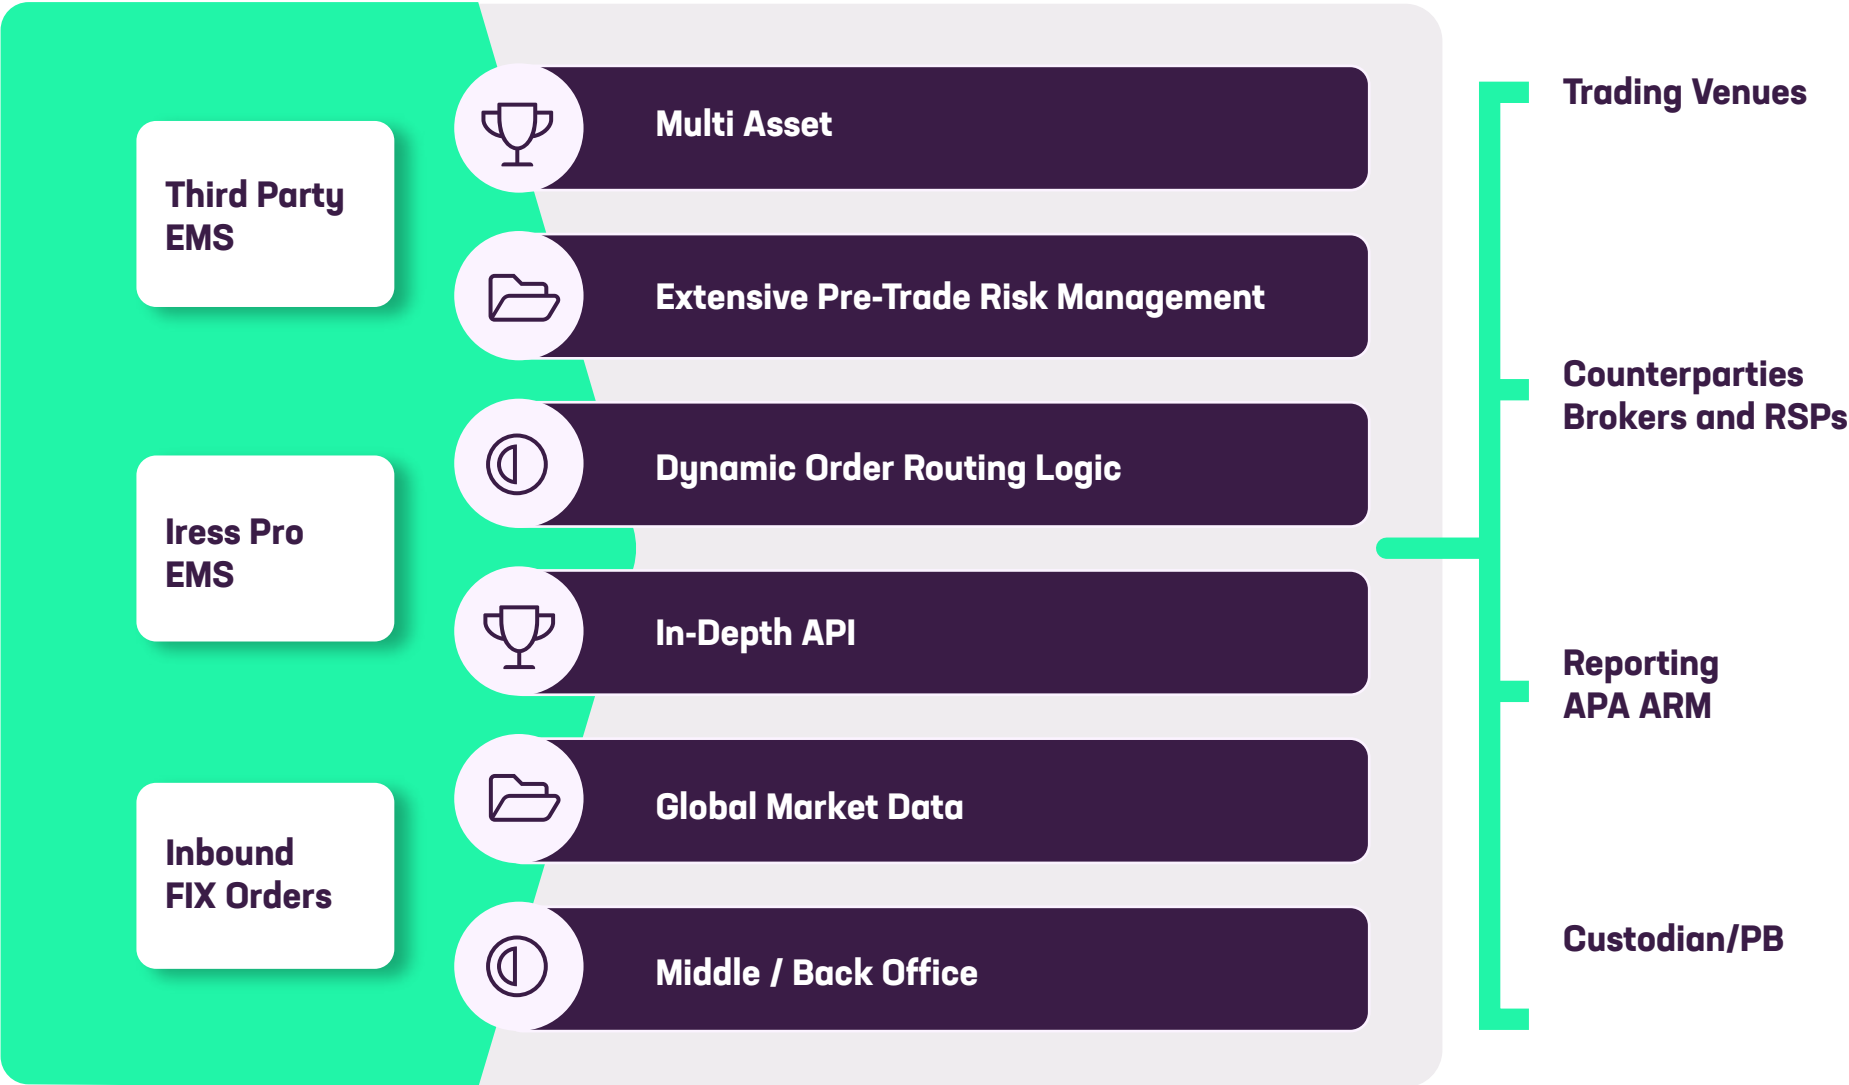

Built on scalable, distributed architecture

Supported by a global workforce of 2200+

Built for better performance

How it works:

Built for better performance

Trade smarter

Streamline high and low touch trading workflows with simple to complex order routing to multiple brokers and destinations.

Manage pre-trade risk

Ensure your risk checks are where they need to be with automatic pre-trade risks and holistic client checks.

Focus on the bigger picture

Give your traders and management the filtering tools and dynamic alerts they need to concentrate on what's really important.

Simplify your audit trails

Track issues and simplify reporting with clear and comprehensive audit trails.

Run high performance middle and back offices

Integrate your Iress trading software with your middle and back offices to reduce errors, increase straight through processing capability and deliver more value for your clients..

Trading software built for better performance.

Around the world, thousands of traders, investment and asset managers, wealth managers, financial advisers, lenders and brokers choose our software to help run smarter businesses, aim higher and achieve more.

We started in Australia in 1993. Today we're a growing team of 2200+ people across APAC, Europe, Africa and North America, building the software and infrastructure to help the financial service industry perform at its best.
