Data Retention	Unless there is a specific data retention period built into the product/ service,
	the Customer, as Controller, will be responsible for determining data retention
	periods applicable to the data it stores within the product/ service.
	Where the product/ service is hosted by IRESS and the customer deletes data,
	this data will be retained in back-up for a period of up to 6 months, following
	which it will be deleted. (We are working towards reducing this period to 35 days,
	and will update this record of processing when this takes effect).
